

SAVE ENERGY

COMPETE IN THE WHOI BUILDING ELECTRICITY REDUCTION CHALLENGE!

GO HEAD TO HEAD WITH OTHER
BUILDINGS AT WHOI TO SEE WHO CAN
DECREASE THEIR ELECTRIC USE THE
MOST COMPARED WITH LAST YEAR

For the months of January, February, and March 2023 we will calculate the decrease in electric use for each building from the same month the year before. The building with the biggest percentage decrease each month wins a free coffee for all occupants.

Wondering how you can make a difference in your building? Visit the Sustainability Task Force website for ideas and more details about the competition
