

WHSTEP Teacher Safari

to Waquoit Bay Reserve and South Cape Beach Research Site:
Student Salt Marsh Studies in the Face of Sea Level Rise

On Thursday, October 11th, 2018

Come learn about local research focusing on sea level rise, values of estuaries, & “blue carbon.”
Featuring an introduction to the “Bringing Wetlands to Market STEM Curriculum Linking Wetlands and Climate Change” & more!

Keynote speakers:

Dr. Meagan Gonnee, Research Scientist at USGS

Joan Muller, the Education Coordinator at Waquoit Bay Reserve

Waquoit Bay National Estuarine Research Reserve at 131 Waquoit Hwy, East Falmouth, MA 02536

3:30-4:00 pm: Gather at Waquoit Bay Reserve Visitor Center: after school snack, coffee, and networking

4:00-5:00: Research presentation and introduction to curriculum

5:00-6:00: Field visit to research site at South Cape Beach

WHSTEP Teacher Safari is a free event open to teachers from WHSTEP member schools. Teachers earn PDP credits for attending and are encouraged to bring students interested in the topic. For more information, please contact Scottie Mobley, WHSTEP Administrator at whstep-info@whoi.edu.
